

Microsoft FrontPage Inserting Rows and Columns

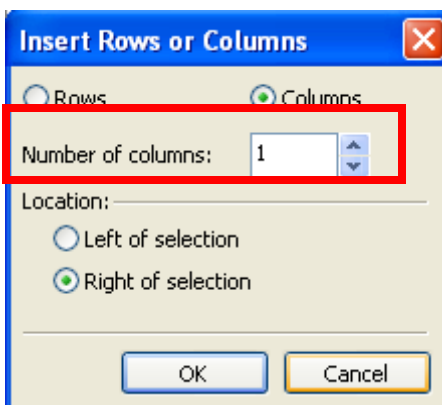

1. Put the cursor in a cell where you want to add a row or a column.
2. Choose **Table > Insert > Rows or Columns...**

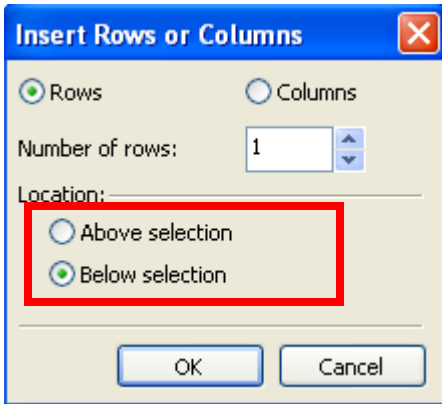

3. Select either **Insert Row** or **Insert Column**.

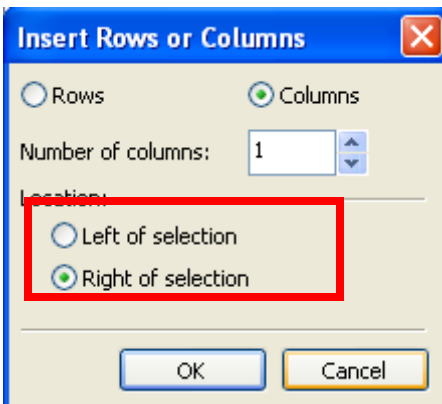

4. Enter the number of Rows or Columns you would like to add.

5. If you selected Rows, select either **Above Selection** or **Below Selection**.

6. If you selected Columns, select either **Left of Selection** or **Right of Selection**.

7. Click **OK**.
